DISCLAIMER

The information shared in this whitepaper is not all-encompassing or comprehensive and does not in any way intend to create or put into implicit effect any elements of a contractual relationship. The primary purpose of this whitepaper is to provide potential token holders with pertinent information in order for them to thoroughly analyze the project and make an informed decision. Prior to your participation in the purchase of NVV tokens, we strongly advocate a careful study of this whitepaper all the documents associated with the same, including the contract in relation to the purchase of the same. You may even engage the services of appropriate experts to help you with investment analysis. Certain statements, estimates and financial information featured in this whitepaper are forward-looking statements that are based on and take into consideration certain known and unknown contingencies and risks which in eventuality may cause the estimated results or may differ factually and substantially from the featured estimates or results extrapolated or expressed in such forward-looking statements herewith.

Naviverse is a navigation bridge app connected to major mataverse cities and metaverse platforms. Naviverse will be integrated with all these major metaverse platforms in both ways. Naviverse will also host other projects related to metaverse.

Blockchain Based Navigation

NAVIVERSE

Amazing features of Naviverse

- Naviverse is compatible with all metaverse projects.
- You can find your way easily with Naviverse on Metaverse platforms. You can visit anywhere you like freely and let surprises follow you.
- You can meet with your friend at the nearest café or you go to gym easily. Don't forget, you may be rewarded surprisingly.
- You can play your favorite games at your favorite places.

You will be able to do these from your preferred land which our app is integrated or directly locating the preferred land from Naviverse App .
